

**GTI DECPRO**

**DECODER  
PROGRAMMER**

Designers and manufacturers of

**GTI GEMINI-TRIDENT**

## WHAT IS DECPRO?

DecPro is an innovative decoder service tool designed for irrigation field maintenance and installation. Ideal for the installer, contractor and end user, DecPro enables quick and easy programming of decoder numbers for both Gemini and Trident decoders.

### 2 and 3-wire decoder programmer for GTI systems

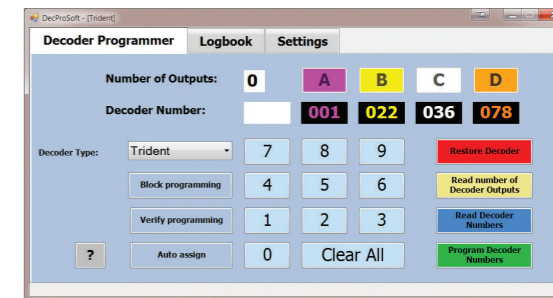

**SERVICE  
DECODERS  
QUICKLY  
& EASILY**

## KEY BENEFITS

**COMPLETELY  
PORTABLE**

- DecPro is completely portable, enabling the user to service decoders in the field quickly and easily
- DecPro uses wireless technology to communicate with the DecPro software
- DecPro can read, programme, and test both Gemini and Trident decoders
- Programme individual or sequential decoder numbers
- Automatically detects the number of available decoder outputs
- Programmes multi-way decoders in one simple step
- Optional spare battery packs available
- Built-in indicators give feedback on battery and communication status
- Quick connect wire terminals to attach the decoder
- Ideal for offsite use prior to contractor installation
- Supplied with Bluetooth adaptor
- Compatible with Windows 10™

DecPro software is simple to use
