

TECHNICAL SALES BULLETIN

GTI Remote Access Products

February 2019

GTI-TSB-046-0219-GB

Distribution Regions: UK only

Product Relevance: PC, EC

For use by: Consultants, Distributors, Contractors and End Users.

With the ever-increasing reliability of web-enabled communication, you can now access your GTI irrigation system remotely. This will enable you to control your irrigation system from any location using an internet enabled device.

GTI REACH. Remote Access

REACH remote access is software installed on to the GTI-PC computer or GTI-EC Tablet and is an annual subscription service payable in advance. Once installed, users can either use a GTI-TRAK device or an internet enabled device of their choice to access the GTI software and control the irrigation using the virtual numeric keypad.

GTI-TRAK. Tablet Remote Access Kit

Bailoy can supply a cellular device of your choice (Apple iPad, Android or Windows tablet) which can be used to remotely access your GTI system. The device comes fully configured for immediate use and includes:

- GTI REACH access software pre-installed
 - An active subscription is required
- Heavy-duty protective case
 - Subject to availability for your chosen device
- Pre-loaded Pay as You Go data SIM
 - *Once data allowance has expired, it will need to be topped up at the user's expense or replaced with a SIM card from a provider of their choice.*
